

PRODUCT BACKLOG REFINEMENT

KEEP THE BACKLOG HEALTHY.
DELIVER **MAXIMUM VALUE**.

REFINE TODAY,
DELIVER TOMORROW!

1 GROOMING SESSIONS

Collaborate regularly to review, clarify and improve backlog items.

- ✓ Regular & time-boxed
- ✓ Open discussion
- ✓ Clarify & understand
- ✓ Remove ambiguity
- ✓ Prepare for planning

Goal: A clear, prioritized and ready backlog for the team.

2 PRIORITIZATION

Focus on what delivers the most value to the customer.

- 1
- 2
- 3
- 4
- 5

- ★ Business Value
- 👥 Customer Impact
- ⚠️ Risk Reduction
- 🕒 Effort & Cost
- 🎯 Strategic Alignment

Deliver high value first.

3 USER STORY SPLITTING

Break down large items into smaller, manageable pieces.

- ✓ Too big to estimate?
- ✓ Hard to deliver?
- ✓ Split by workflow
- ✓ Each piece delivers independent value
- ✓ Small, clear, testable

Small stories. Fast delivery.
Happy Customers.

4 INVEST MODEL

Ensure good quality user stories using INVEST principles.

★ Good stories = Better Planning + Successful Delivery

5 ACCEPTANCE CRITERIA

Define clear conditions to confirm the story is complete.

- ✓ Clear and Testable
- ✓ Guide Development
- ✓ Ensure Quality
- ✓ Reduce Rework
- ✓ Shared Understanding

Example:

- User can reset password using registered email.
- System sends a reset link.
- Link expires in 15 minutes.

REFINEMENT CHECKLIST

- ✓ Is the item clearly understood?
- ✓ Is it properly prioritized?
- ✓ Is it estimated appropriately?
- ✓ Is it broken down if too large?
- ✓ Does it meet INVEST criteria?
- ✓ Are acceptance criteria defined?

Refine Continuously. Deliver Consistently.
